

08-23-2010

Dear Parents/Guardians,

Senate Bill 1467 mandate school districts to provide information regarding meningococcal meningitis to parents or guardian of our student grades 6-12 at the beginning of each school year. Attached is a fact sheet from the Department of Health and Human Services/Centers for Disease Control and Prevention, about Meningococcal disease. Please know that vaccines are available at The Leflore County Health Department free of charge for students ages 11-18. Meningococcal vaccine is a requirement for most college entrance. If you have questions or concerns, please contact your physician or Leflore County Health Department at (918)647-8601.

Thank you,

Rachel Robbalaa, RN
Spiro School Nurse
